*If you or someone close to you is  
having trouble hearing,  
Hearing Professionals Nelson Marlborough  
provide complete and confidential  
hearing assessments.*

**HEARING PROFESSIONALS NELSON MARLBOROUGH** are your local hearing specialists. We understand how hearing loss can diminish your quality of life. It can be frustrating for you and for the ones you love.

Jill Beech MNZAS

Let Hearing Professionals help you get more from life through better hearing. With fully qualified Audiologists at our Nelson and Blenheim clinics, we provide prompt and comprehensive hearing services to the Nelson Marlborough region.

At Hearing Professionals our aim is providing a higher quality of life for the hearing impaired.

**PROFESSIONAL QUALIFICATIONS** mean that Jill Beech and Vera Setz are able to perform complete hearing assessments for ACC, OSH, War Pensions, Work and Income Support Service, Enable New Zealand, pilots, divers and Armed Services medical examinations.

Vera Setz MNZAS

Jill and Vera are highly qualified, university-trained Audiologists who are accredited members of the New Zealand Audiological Society (MNZAS). Only fully qualified Audiologists can offer a complete hearing service. MNZAS certification helps give you peace of mind.

You can ask your doctor to refer you to Hearing Professionals for any of our services, or contact us directly at either of our two convenient locations.

**THE NELSON MARLBOROUGH REGION** offers a unique lifestyle choice. Don't let a hearing loss affect your ability to experience the fullness of life in this special place.

Hearing Professionals is locally owned and has been providing high quality hearing services to the Nelson Marlborough region since 1996. We're here to help you hear more, live more . . .

**HEARING LOSS** affects more than 400,000 New Zealanders. One person in ten has a problem hearing in certain situations but most would not consider themselves to be deaf.

A person with hearing loss may find they miss the beginnings and ends of spoken words. Or they may have trouble hearing occasionally, particularly when there is background noise. Often, hearing loss is more of a problem for the friends and partners of the hearing impaired person rather than for the person themselves.

If you or someone close to you is having trouble hearing, Hearing Professionals can provide a complete and confidential hearing assessment to determine the extent of hearing loss, help diagnose the likely cause and provide independent advice on the options available to improve your hearing.

A complete hearing assessment typically takes about one hour. This includes a full diagnostic assessment using modern equipment in a sound-insulated environment, a thorough discussion of your test results, an explanation of the choices you have and the implications to you and your lifestyle.

**HEARING AIDS** come in many styles, shapes and sizes, with a range of features to suit different types of hearing loss and different hearing needs.

If your hearing needs indicate that you could benefit from hearing aids, we will carefully explain all of the options, costs and technologies available. We'll also discuss the variety of funding options available to you, such as through ACC, War Pensions or Enable New Zealand.

We consider many factors including your particular type of hearing loss, your listening environments, the amount of noise at home and at work, cosmetic needs, cost and manageability.

We'll instruct you fully in using your hearing aids to maximum advantage and show you how to clean and care for them. Most importantly, you'll have time to trial your hearing aids in your home, at work and socially. And where necessary, we'll make adjustments to ensure you receive the best results with your new hearing instruments.

Your hearing health is important to us. As members of the NZ Association of Independent Audiologists, Hearing Professionals is able to offer the complete range of hearing instruments. We'll fit the hearing aids best suited to your individual hearing needs.
